Process generating the material -- Rationale for eliminating the analytical testing

By signing this form, I certify that I am an authorized representative of the generating facility, and I warrant the recyclable materials represented are not a regulated hazardous waste (or treatment residue) by the USEPA, by an applicable State authority, or by any applicable local authority, and do not contain PCBs or other materials regulated by TSCA (i.e., 40 CFR 761). Further, I certify the material was characterized in accordance with TCEQ regulation and the information provided is representative of the candidate material.
